Portfolio

Summary

First-year B.Tech IT student at MIT Muzaffarpur and BS Data Science student at IIT Madras, passionate about AI-powered web applications using React, Supabase and Firebase.

Education

MIT Muzaffarpur

B.Tech Information Technology (2025–2029)

Current CGPA: 6.1

IIT Madras

BS in Data Science

Current CGPA: 7.86

Technical Skills

Frontend: React.js, HTML5, CSS3, JavaScript (Basics)

Backend: REST API Integration

Database: Supabase, Firebase

Tools: GitHub, VS Code, Vercel

Learning: Python, PostgreSQL, Node.js

Featured Project

HydroSentinal

AI-Powered Water Quality Monitoring Platform

- Built an AI-powered web application for monitoring water quality.
- Developed responsive React dashboards with REST API integration.
- Used Supabase Authentication and cloud database.
- Deployed on Vercel.
- **Tech Stack:** React • Supabase • Firebase • REST APIs
